**Subject:** RM 10.9, sampling next week....

Hi Rob,

As we still don't have a draft revised QAPP to review, I can't allow the sampling to start on Monday. You may mobilize to the site, with a tentative plan of starting sampling on Tuesday, but there just isn't time at this point for us to review the plan adequately. Of course, if there is a significant concern with the revised QAPP, then sampling will need to be further delayed -- but I do not anticipate this happening.

When you do send out the revised QAPP, please copy CDM so they may start reviewing it right away, in case I am not at my desk when it's sent.

Please let me know if you have any questions, and have a great weekend!

Stephanie
